Targeted Database

Targeted Database

A well designed and **targeted database** in **more than 10 countries** enables you to seek a new opportunity and to further segment your target market and to easily meet your business goals.

SMS Trackable Link

SMS Trackable Link

You can send any media you want through a link and we can do a customized feature according to your request:

*Web Link (social media or website link)

is an evolution itself in which it permits yaou to cover all your marketing channels (social media platforms or the website) in one medium that will redirect your clients to the other platforms.

*Media link (Video audio image pdf)

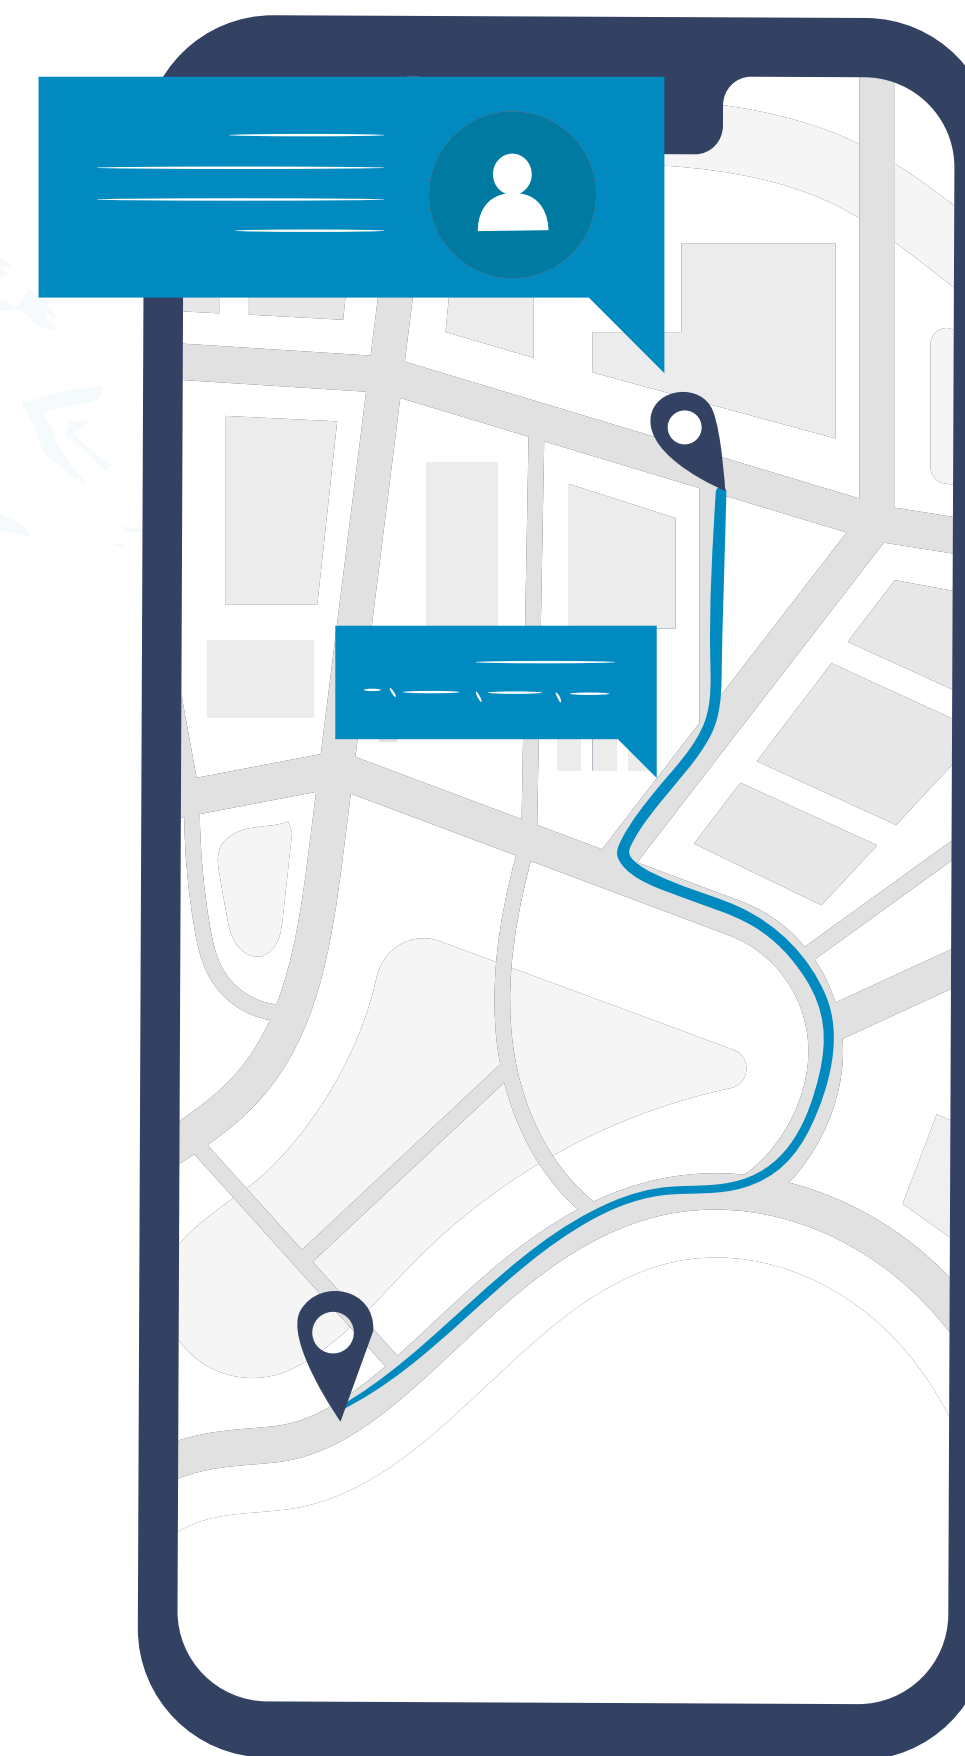

improves the appearance and feel of your SMS campaigns,without any development of your website; However it's just a media you're adding (pic, audio..)that encourages customers to tap through with an appealing glimpse of the content to come, as well as confirming its significance.

*flipping page link (catalogue)

SMS will not limit your offerings! Adding a flipping page link which is attaching a catalogue of you own allows your customers to enjoy flipping and checking your wide offering.

*Survey link or contest link

Ask for customer feedback, this type of SMS comes in handy in times like these where you are looking to improve your product or service. allows you to analyze your clients' feedback as well as their reaction to the contests you run.

ONLINE SURVEY

Create beautiful online surveys **IN MINUTES!!**

No need to Sign Up if you have a **BROADNET ACCOUNT**

Building Pages Without a Developer?

Total Power Move! Everyone can drag and drop, Select and Modify existing Templates or start from scratch.

That will lead to: Convert More Traffic faster!!

Easy to build

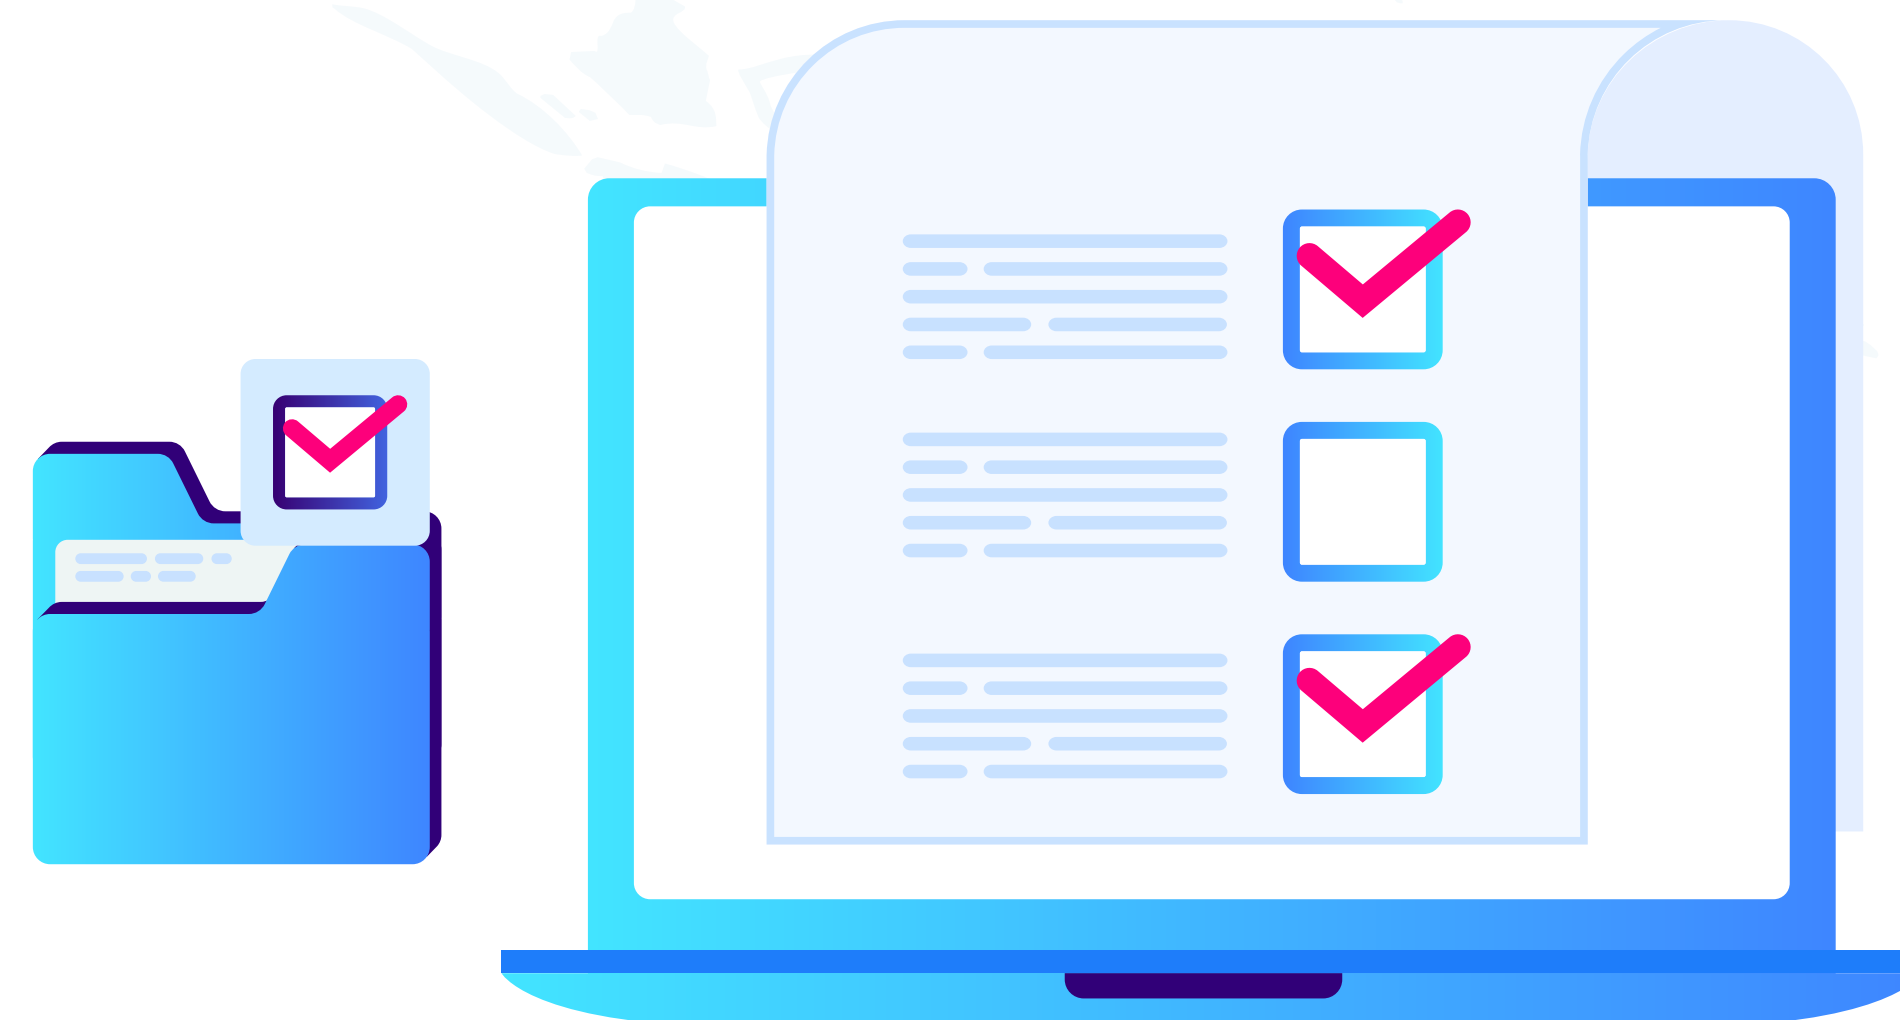

JUST DRAG AND DROP. TYPE SOME QUESTIONS. ADD A TOUCH OF DESIGN TO MATCH YOUR BRAND. THEN SHARE YOUR SURVEY.

YOUR SURVEY IS JUST AN EMPTY SHELL WITHOUT YOUR PERSONALITY. MAKE IT EVEN MORE INTERACTIVE USING ICONS, IMAGES, GIFS, AND VIDEO AND ALL CAN BE DONE USING DRAG AND DROP TOOLS.

Make it interactive. Get more quality data

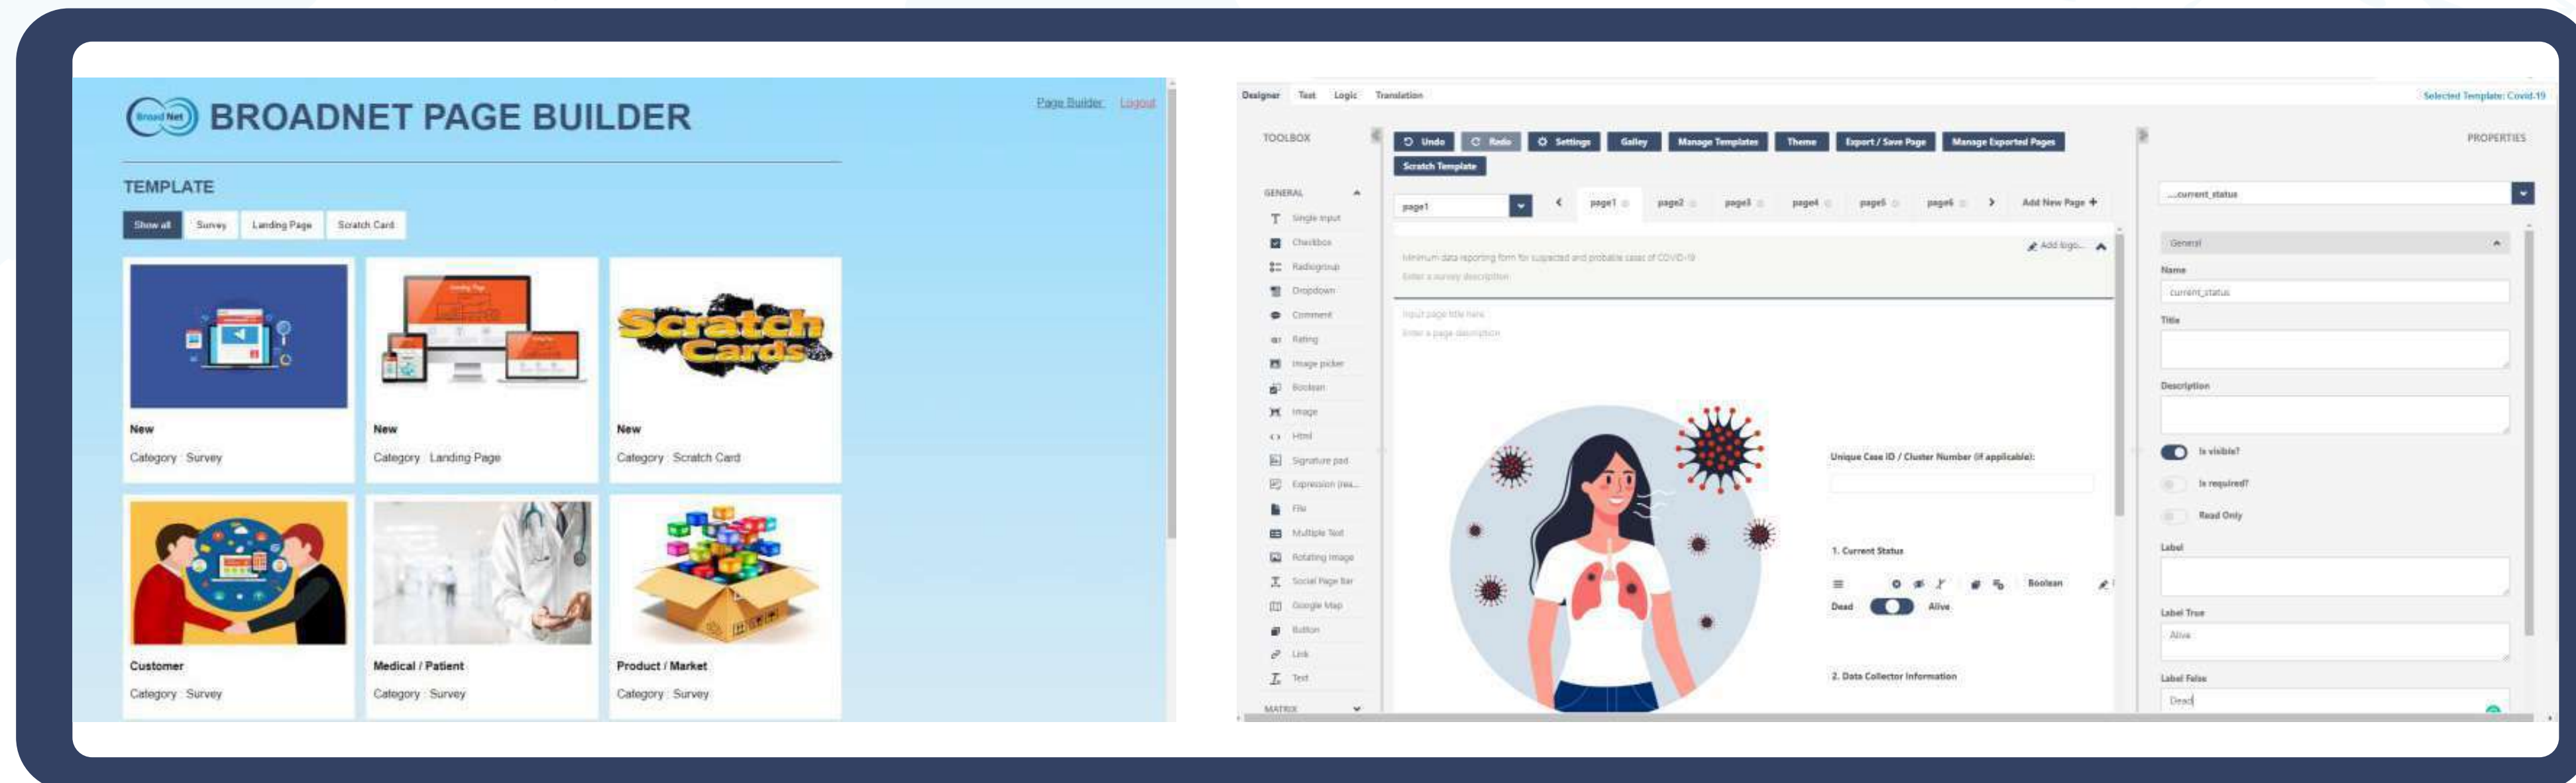

Surveys have never been more engaging. When you put people first, you get more honest data. Watch your responses soar.

BETTER THAN SURVEYMONKEY!!!!

Remarkable user experience

Broadnet Survey is real -- no need to bore people with needless questions. Instead, personalize the user journey with logic jumps. Skip to questions based on someone's answers -- just as you would in a real conversation. Who wants to get bogged down with confusing graphs and charts? Our reports are clear and concise. Gain quick insights, revise ambiguous questions, and make better informed decisions.

Landing Pages & Scratch Cards

Create post - click landing page experiences at scale

Relevant messaging is key to getting more leads, sales, so give your visitors Exactly what they're looking for with custom built landing pages, and showing your goods or declaring your idea with an image or video. With Broadnet Survey, Landing and scratch Card page builder, you'll get better results without increasing your employees or head count. Use scratch card marketing to rocket your revenue. In an overcrowded marketplace it's hard to grab and hold people's attention, your customers are bombarded with marketing messages from the moment they wake up, digitally and in print

Upselling: include a free scratch card at the point of purchase. The card could offer discounts on the customer's next purchase or offer other bonuses On bigger purchases. This technique is effective whether you choose to do it instore, via direct mail or flyer.

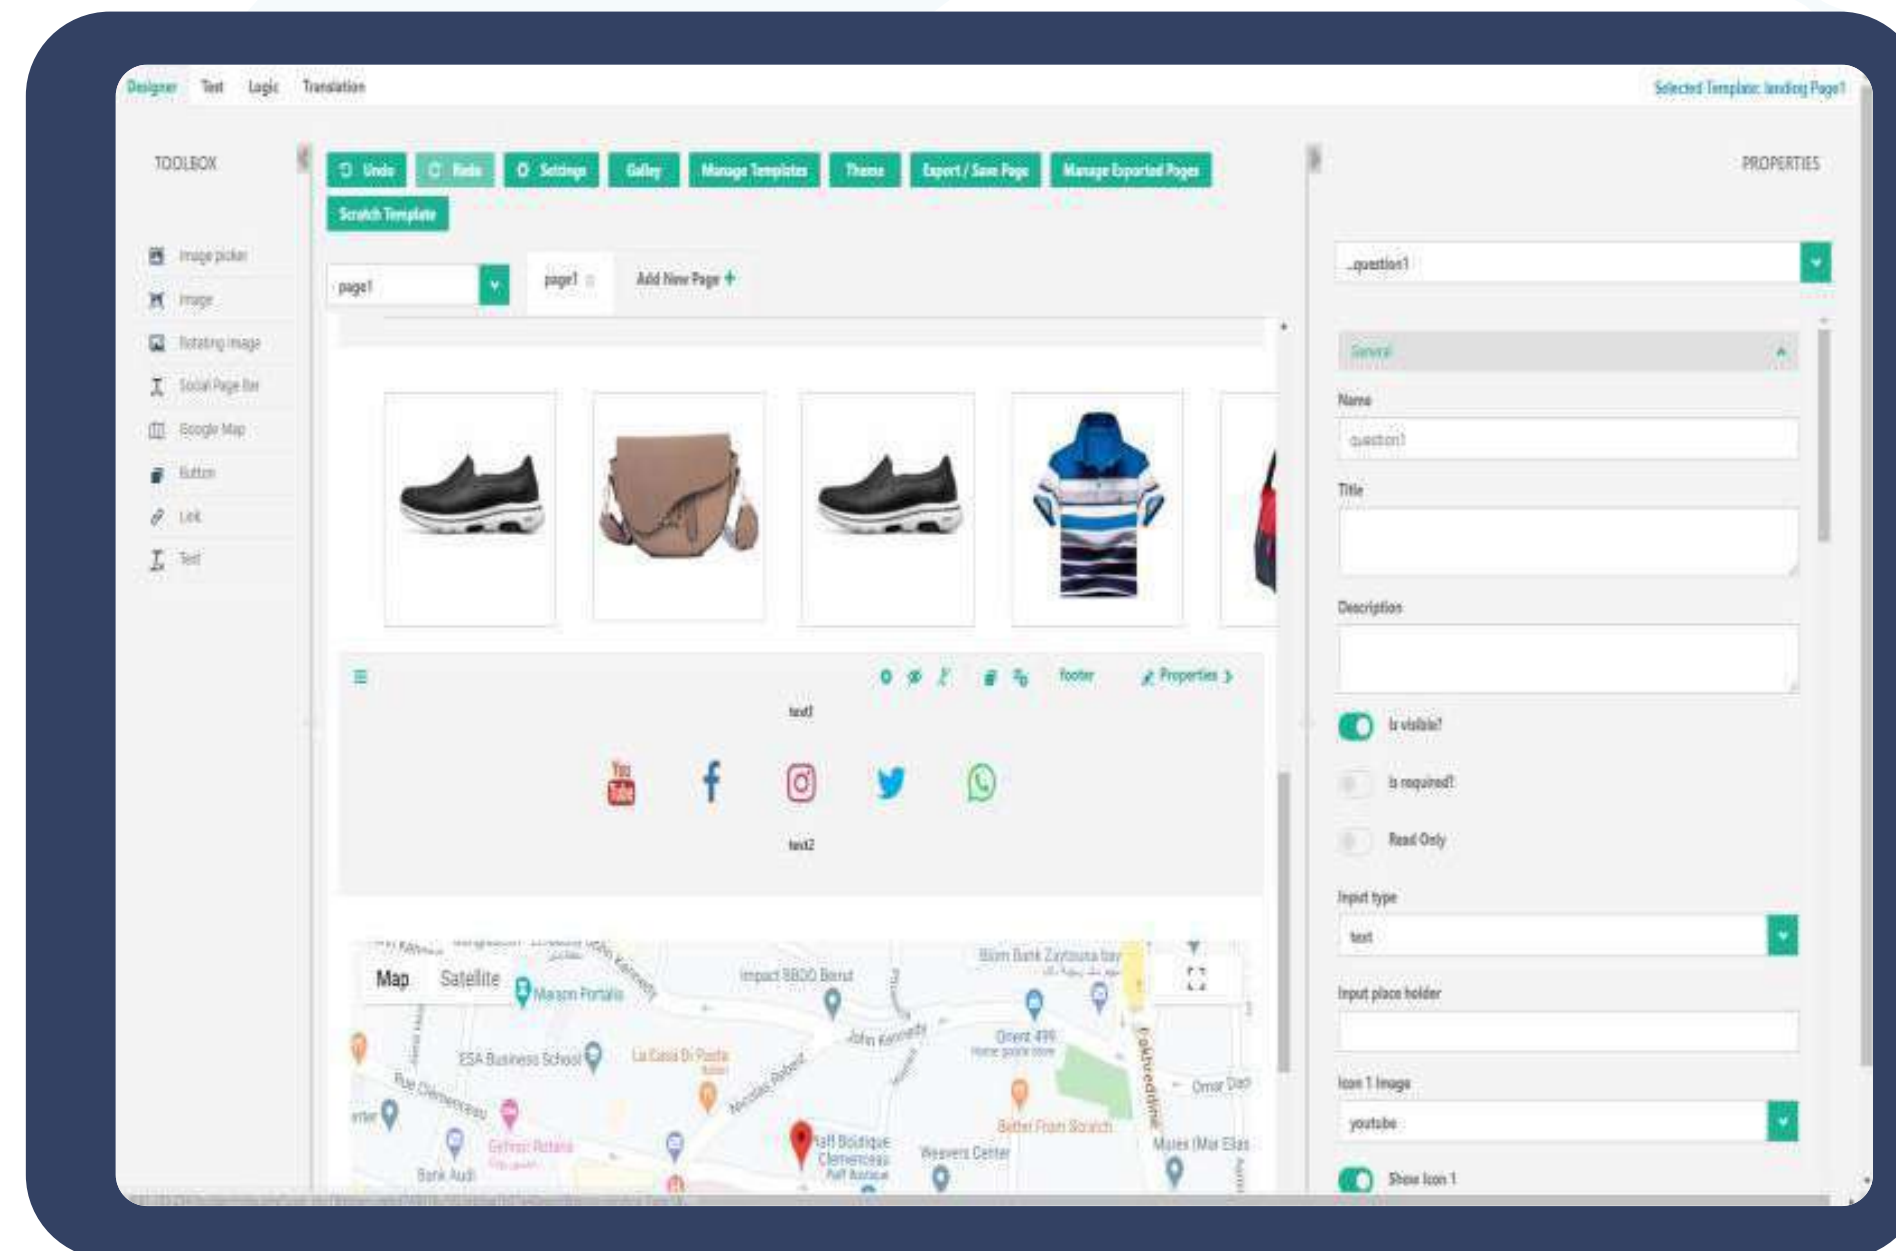

Landing Page

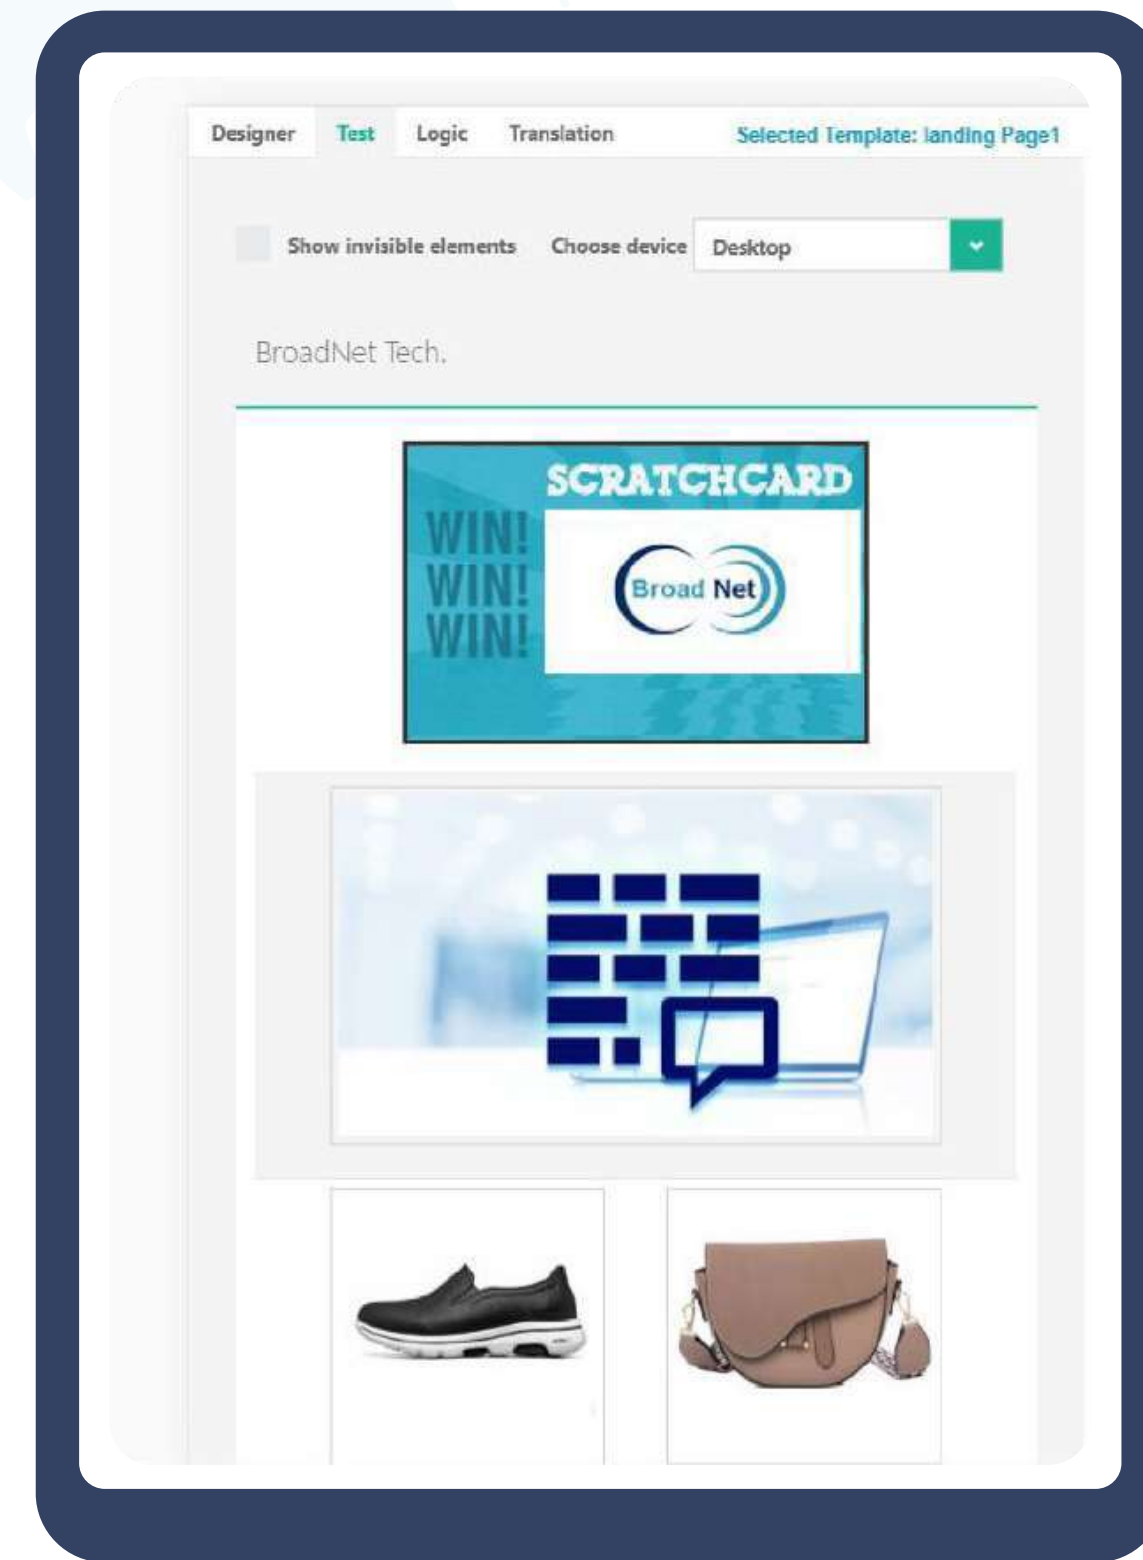

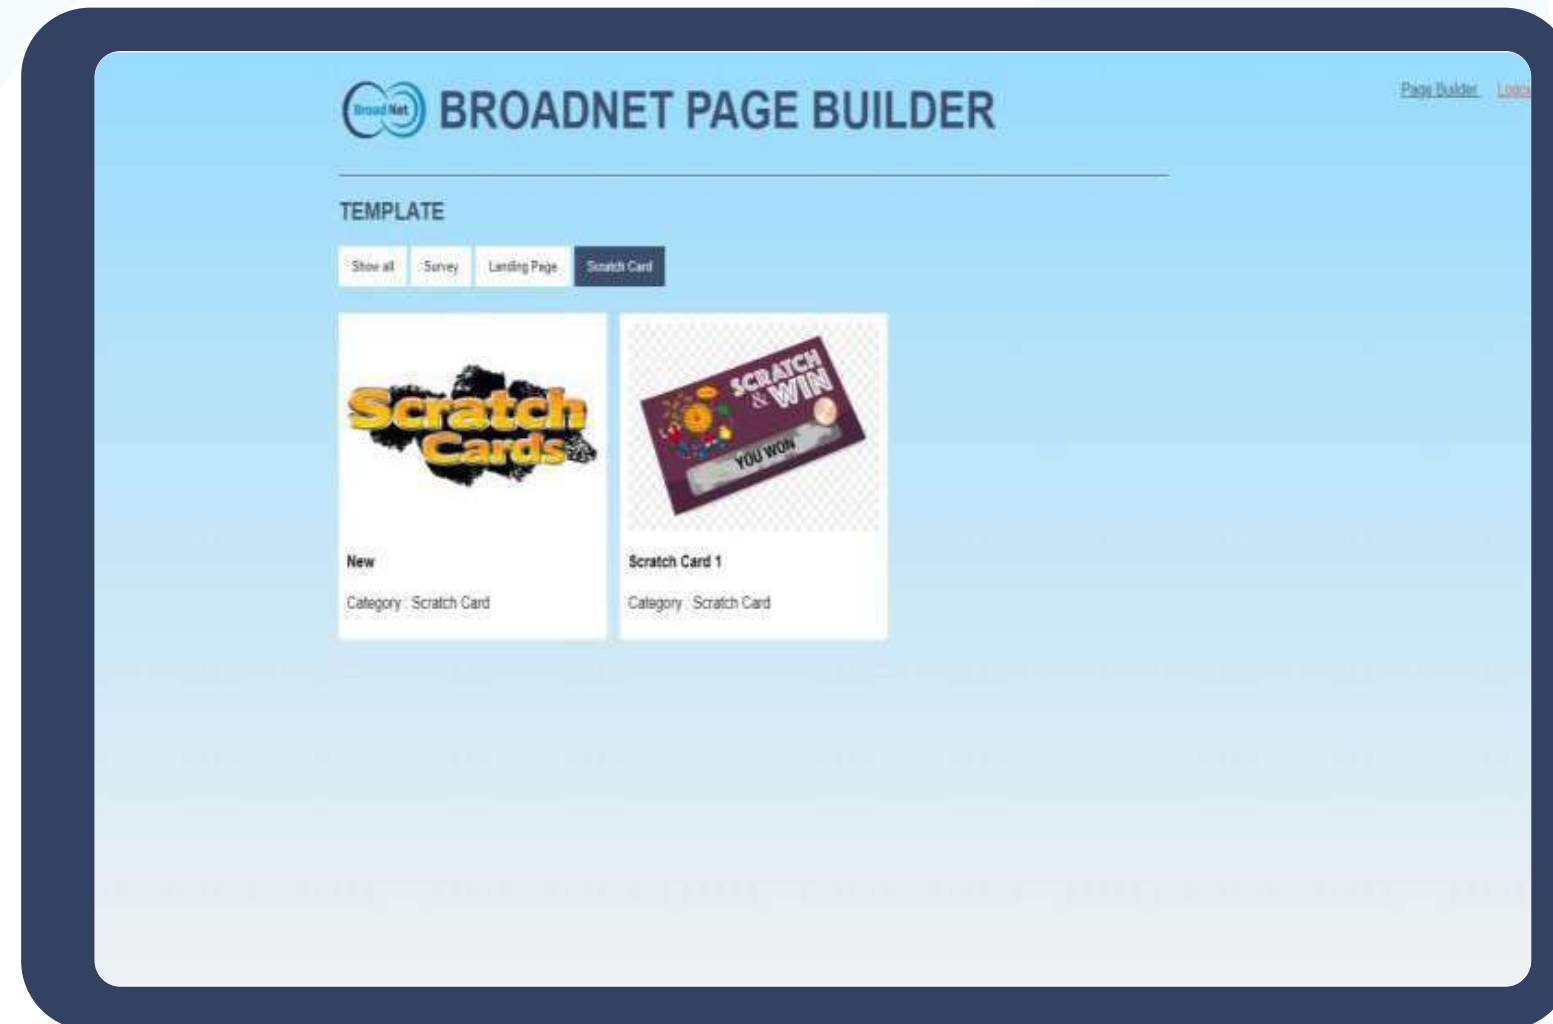

Build **personalized, mobile - responsive**, and **conversion optimized** post - click landing pages in minutes -- without a developer!

Besides you can grab delegates' attention, conference or exhibition using Scratch cards, More over you can do a longer- Running campaign with a great way to keep customers coming back for more ex: **Reward loyalty**

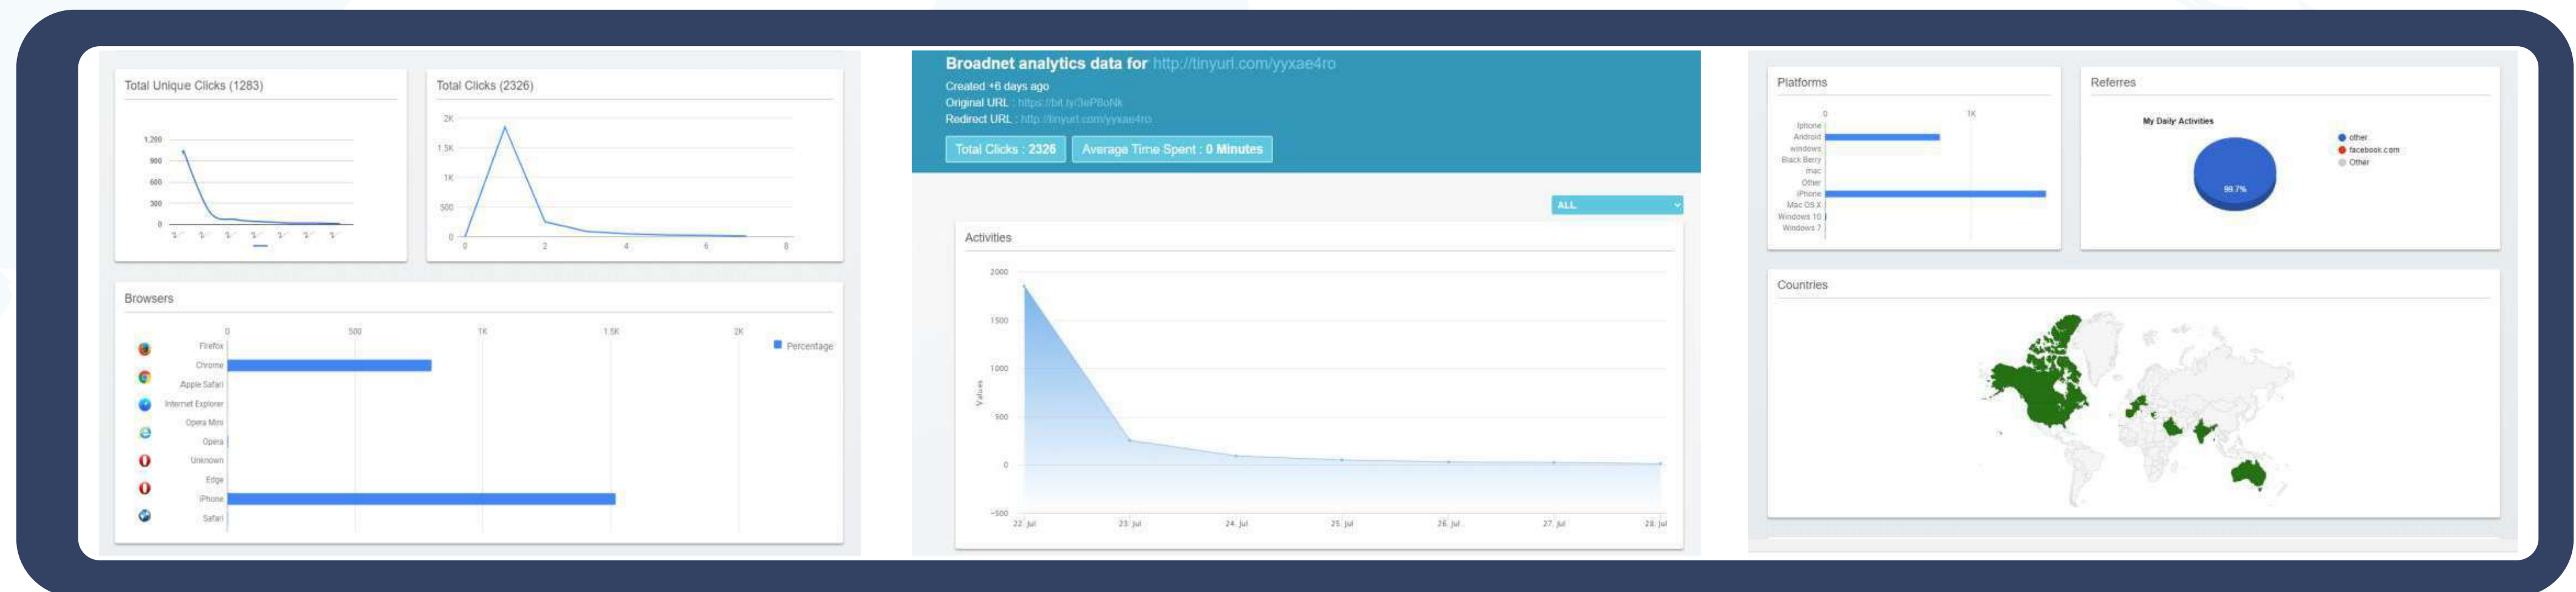

Scratch Cards

Clean reports and metrics

Need to send data to Google Sheets? No problem. Need to forward responses to Air table? Done. With hundreds of integrations, create workflows as unique as your fingerprints. Analyze data where you work best.

SMS EMOJI

SMS EMOJI

Adding EMOJI to SMS has a positive impact on the comprehension, persuasion, and attractiveness of your message as it gives your clients a positive and appealing feeling to do an action.

Email to **SMS**

Email to SMS

Wondering how to reach your audience in a brilliant way?
One of Broadnet's features is EMAIL TO SMS SOLUTION: We simply convert your **email into a Message**.

How does it work?

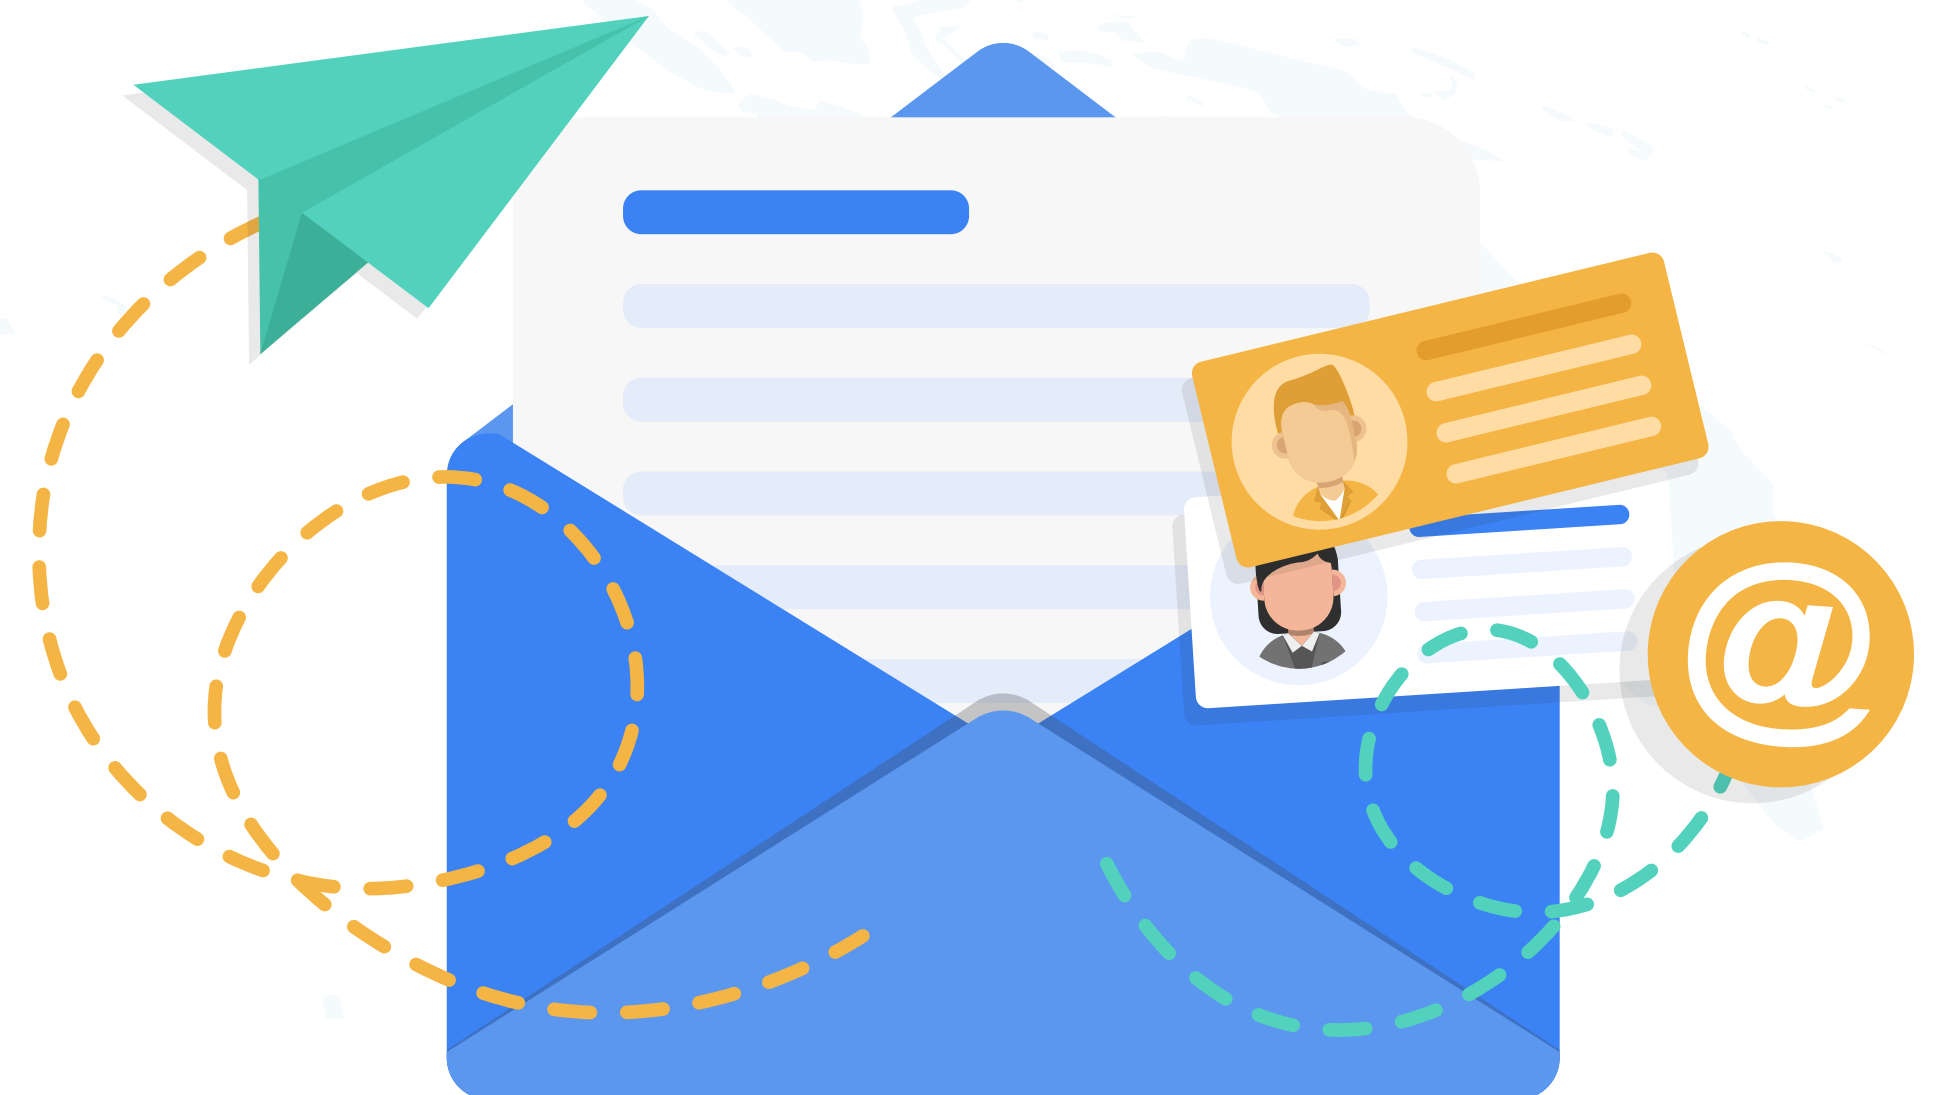

Step 1: API Integration: Easily Integrate Your **Email to Our SMS** Gateway.

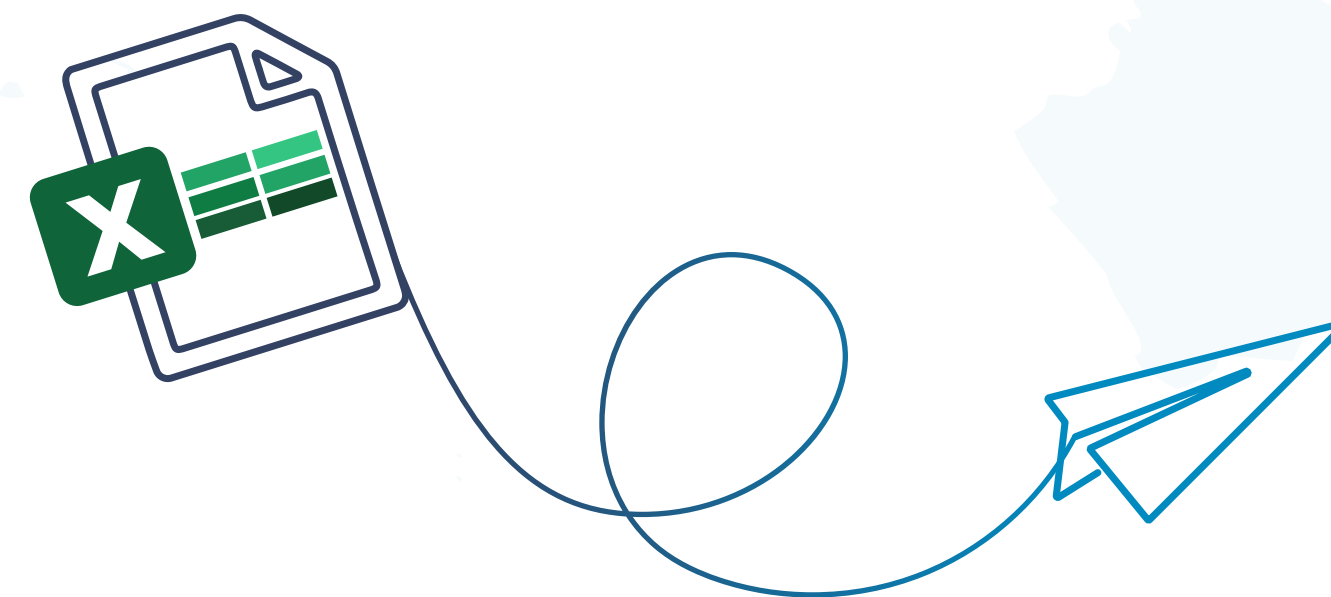

Step 2: Format: Instead of entering an **email** address in the recipient box, insert the digits mobile nb. of the person you're trying to reach.

Step 3: Sender ID: Enter your title in the Email Subject Line with 11 characters

Step 4: Send one or multiple numbers: Send all your messages through your email account to any mobile number.

Step 5: Sender ID: Receive an online reports with the delivery status of your messages.

Excel to **SMS**

Excel to SMS

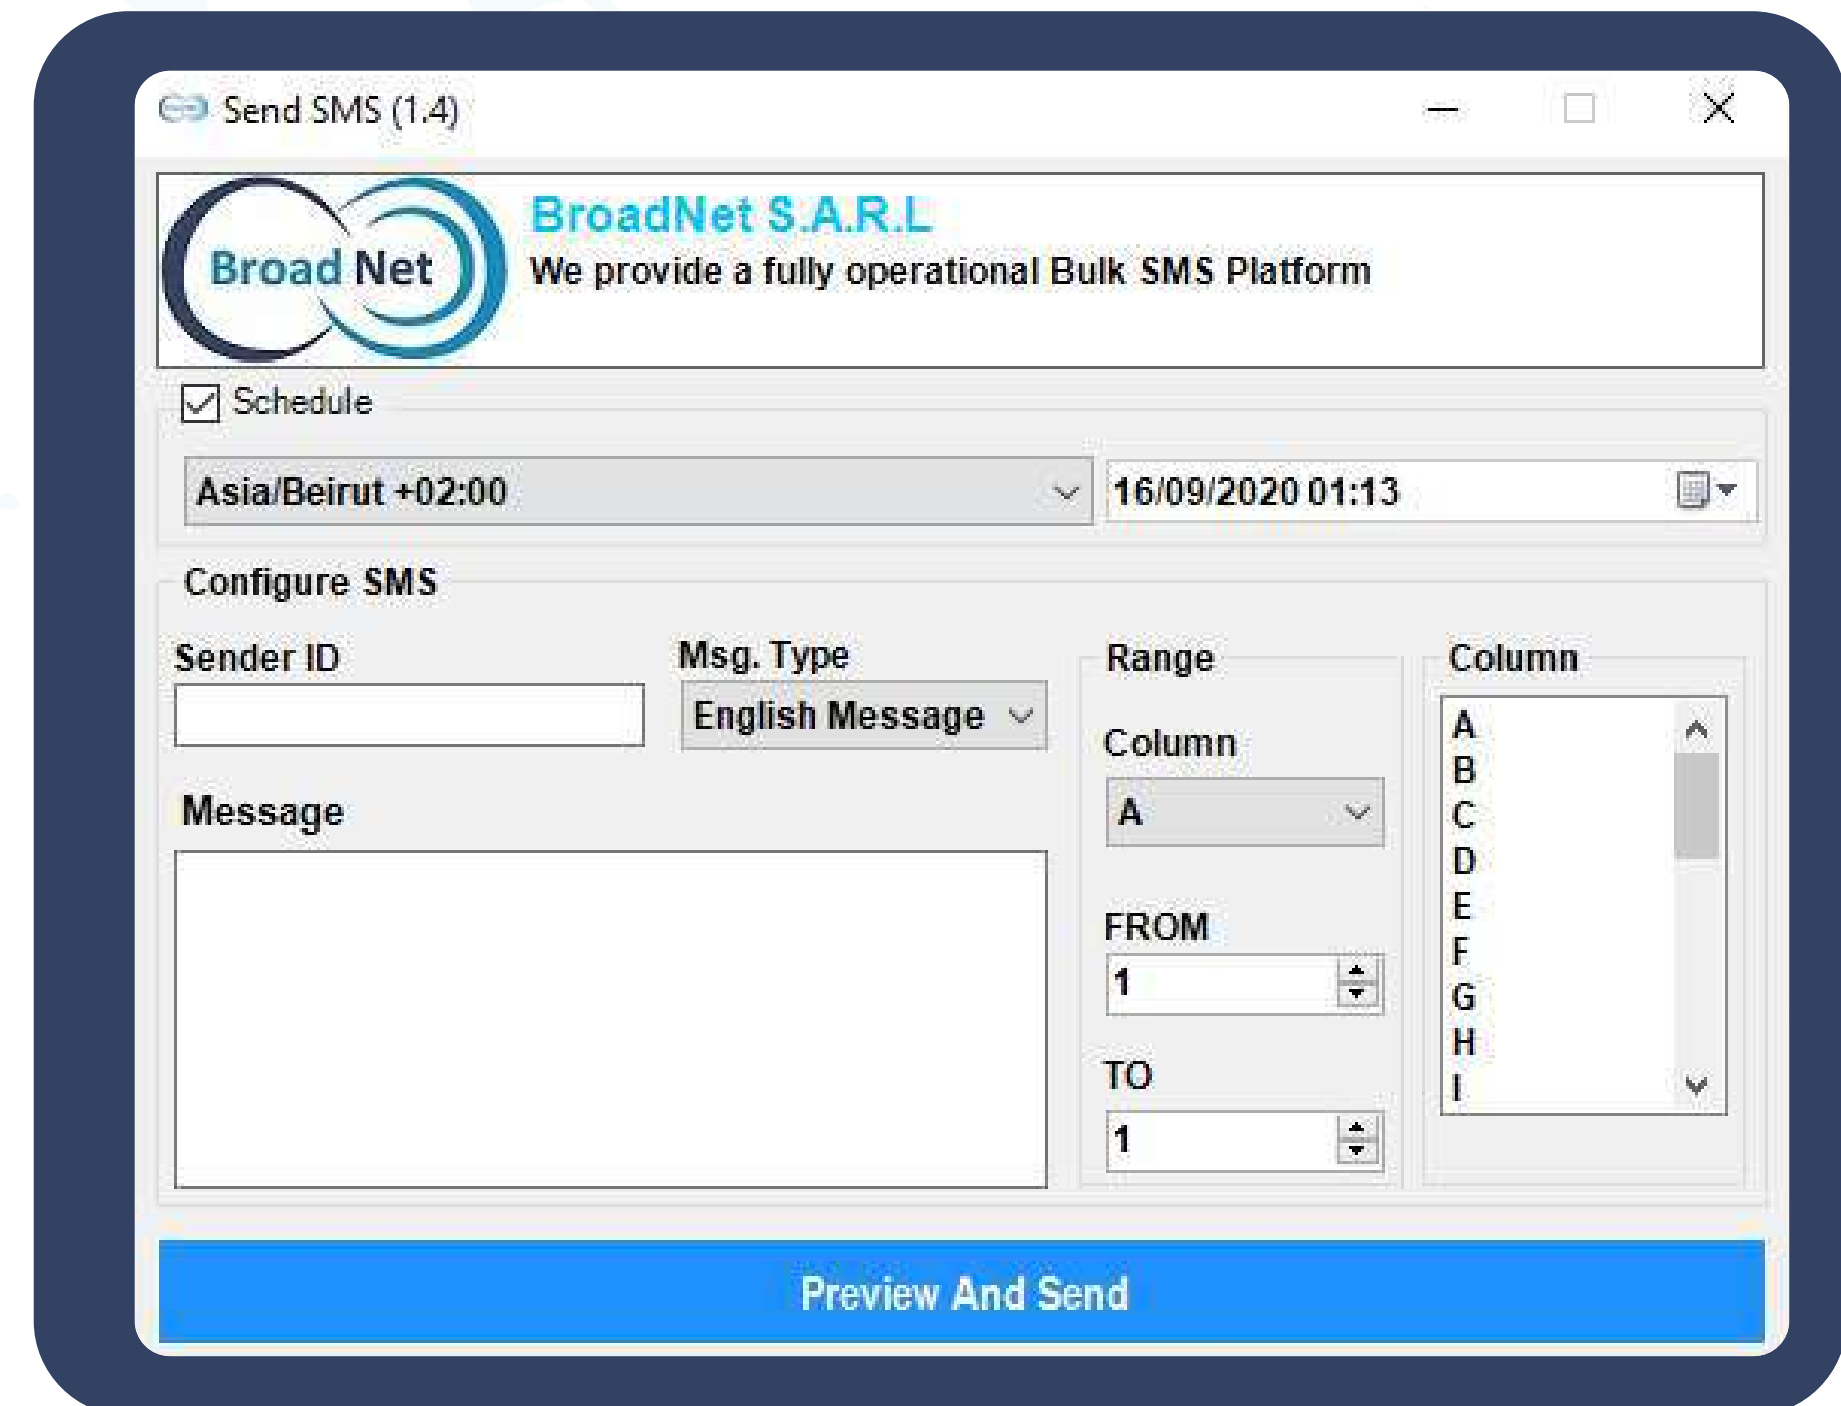

Broadnet **SMS Excel Plugin** offers users to send SMS from Excel sheet directly.

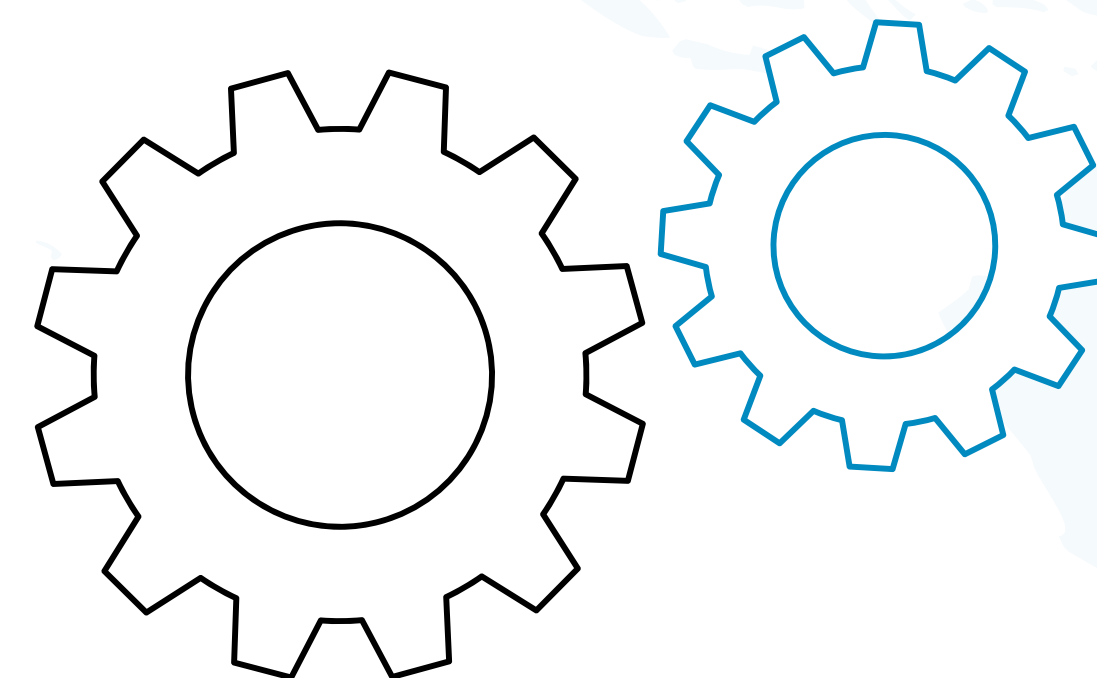

Advantage:

- No need to login to any website.
- User friendly interface
- Unique sender ID
- Message previewing facility
- Character counting
- Scheduling
- Checking your SMS credit balance
- Message delivery reports

Process:

- 1-Download and install SMS Excel Plugin
- 2-Open Microsoft Excel, select Login to your SMS account
- 3-Enter Text and the sender ID
- 4-Select as many numbers as you want or the row, and send SMS to them in one go!

SMS APL Integration

APL Integration

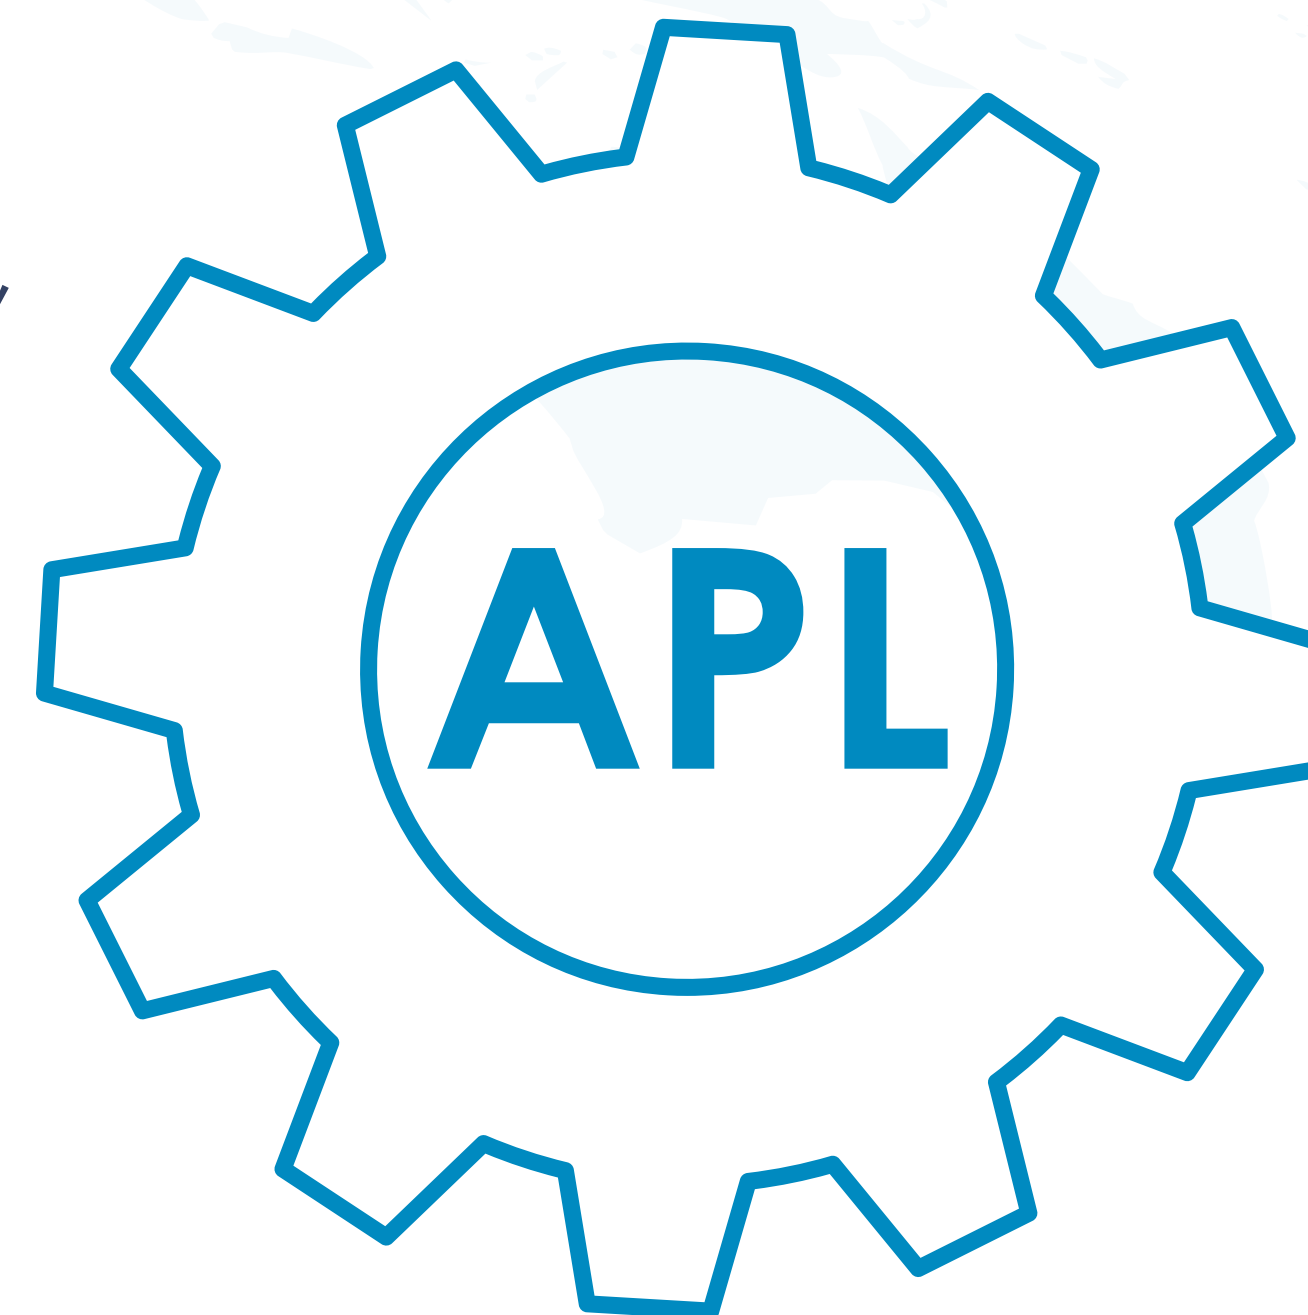

For any **TRANSACTIONAL, ALERT, NOTIFICATION SMS**.

To power up your SMS marketing, you should have adopted SMS integration into your SMS plan.

An **SMS API** presents a quick and powerful way for developers to connect to an **SMS gateway** and send SMS immediately.

APIs are secure, reliable, adaptable, and permit any application, website, or system to send messages around the world.

Using APIs can make workflows faster and more productive, reducing the need for manual management by staff.
