

Date: 28 February 2025

Dear Parents,

During Ramadan and in line with the Year of Community and on Emirati Education Day, we are pleased to introduce Service Learning Fridays, a new initiative that will be integrated into all schools across Abu Dhabi.

Schools will dedicate Fridays to hands-on community engagement, allowing students to apply their learning in real-world settings that make a difference.

Education is about more than just academics, it's about preparing our children to be compassionate, responsible, and engaged members of society. Students will take part in age-appropriate service-learning activities, such as kindness campaigns, environmental clean-ups, or book donation drives for cycle 1 students; peer mentoring, recording oral history of the elderly, food bank collections, or STEM outreach programs for cycle 2 students while cycle 3 students will have opportunities to lead social impact projects.

This initiative is more than just community service, it is embedded into the curriculum, ensuring that service learning aligns with academic subjects, national identity and character development goals.

Parental involvement is encouraged and we invite you to support your schools with ideas of your own or participate in service projects with your child.

Kindly note, For off-campus school activities, your signed consent will be collected for the entire month.

For more information, please contact your school.

Thank you for your continued support.
